HOME RULE FOR CUBA

The Spanish Government Will , Make Great Concessions.

ARRANGEMENTS ALMOST MADE.

No Definite Date Is Yet Fixed For Carrying Out the Reforms-General Maceo Announces His Determination of Breaking Through General Weyler's Lines. . The Charges Against Rev. Diaz.

New York, April 21.—A dispatch to The World from Madrid says: The government of Spain has completed, barring a few details, its preparations for putting in shape the contemplated colonial reforms, Colonial Minister Castellanos asserts. No definite date is yet fixed for earrying out the reforms. The government will only decide upon dates after again consulting General Weyler.

The colonial minister says that his frequent interviews lately with Premier Canovas were chiefly regarding statements to be made in the royal speech on the meeting of the cortes in May, with a view to exhibiting to the country the real state of affairs in Cuba, the cost of the eampaign, the intentions of the cabinet respecting colonial autonomy and the relations existing between the Madrid government and the Washington government.

Much stress will be laid upon the necessity of continuing the efforts to improve the coast defenses of both the mother country and the colonies and of placing the army and nuvy on a better footing.

These declarations of the minister of the colonies are much commented upon. Madrid journals, the Liberals and the Republicans, freely express the opinion that the Cuban reforms are not likely to be satisfactorily earried out by the Conservative party, which has always fought them and contributed to the failure of the first and more comprehensive home rule bill of 1893.

SPAIN IS POWERLESS.

She Can Not End the Cubun War by Her Own Unalded Forces.

NEW YORK, April 21.—A dispatch to The World from Havana says: If General Maceo succeeds in crossing the and other points, continue to do imarmy barrier in spite of the 50,000 Spanish regulars pressing him on all sides, General Weyler must confess, us General Campos did, that the eampaign is a failure and that Spain can not end this war by her own unaided forces.

The rebel general has sent word to his friends in Havana that he will break through the trocha when he is ready, and that when the first showers of rain fall the captain general's plans will turn to dust.

It is certain that General Macco has some sure means of suddenly assembling his roving bands on this side of the trocha; some say by means of colored paper balloon and others by mess-

There is a belief that if General Weyler is out-maneuvered Spain will presently welcome the friendly mediation of the United States. Even the Spaniards share his feeling.

Prisoners of war are condemed to death as incendiaries without proof of actual guilt. Evidence that a rebel soldier belonged to a column of the enemy which burned property is sufficient to insure his death. A prisoner's conviction depends on whether he joined the offending band before or after the ineendiarism occurred.

It is said that nearly 100 prisoners will be shot as incendiaries within a tew days.

Charges Against Rev. Dlaz.

Washington, April 21.—Information which has reached Minister Dupuy de Lome of Spain shows that the charge upon which Rev. A. J. Diaz, the Baptist minister, was arrested and ineareerated by the Spanish official at Havana was that of his being implicated in a contemplated uprising against the povernment on the outskirts of Havana. The prisoner will have a preliminary hearing to ascertaln the truth of the offense with wnich he is

charged. Representative Black of Georgia yesterday called at the state department and talked with officials concerning Mr.

Diaz. After the interview Mr. Effect said that there was no doubt that Diaz had taken out naturalization pupers during his residence in this country and is a citizen of the United States. The state department, he said, will see to it that Diaz is given a fair trial and is acthat Diaz is given a fair trial und is aceorded his rights as an American citi-

The tornado came from the northwest with great furry and every building it struck was swept away. STATE TROOPS ORDERED OUT. Circus Followers Crente a Riot at St. John, Kunsas.

TOPEKA, Kan., April 21.—Governor Morrill received a dispatch late last night asking that troops be sent to St. John, Stafford county, to quell a riot. The dispatch was signed by the sheriff and county attorney. The cause of the disturbance was not stated.

The governor ordered Adjutant General Fox to proceed to St. John ut once, taking with hlm the company of militia at Newton. General Fox left on the midnight train.

Cause of the Riot.

Kansas City, April 21.—A dispatch to The Times from Hutchinson, Kan., says the reported riot at St. John was provoked by followers of a circus, who, after swindling several susceptible Kansans, resisted the efforts that were made to recover the money they had taken. In the scrimmage that ensued the entire circus crowd was pitted against the citizens und officers. The trouble soon took on an aspect so serious that the sheriff telegraphed to Governor Morrill for assistance to put down the riot. Five men are reported to have been badly hurt. The details of the trouble can not be learned.

FLUTTER IN STAMP BUREAU. The Government May Quit I'rinting the Little Letler Carriers.

Washington, April 21.—It is said there is great agitation umong the employes of the stamp printing branch in the bureau of engraving and printing over the agitution in congress to take the contract of printing the stamps away from the bureau and opening it to bids from private concerns. The argument is made that these employes will be thrown out of positions and will have to depend upon their families for

Very little has been said of the extra expense which has been put upon the government and the people to give these few clerks positions, and the treasnry department, which controls this work now, in putting forth this argument is trying to appeal to the sympathies of congress rather than their common sense. No mention is made of the immense amount of money which has been required to furnish muchinery and other appliances necessary for the government to go into the stump making business, because if this was done it would at once show how much more it costs the government to make stamps than to have them made by outside contract.

Another thing which the treasury department is keeping exceedingly mum about is the remarkable increase in counterfeit stamps which are now almost daily thooding the country. Only on Wednesday last did the secret serv ice officers of the treasury nucarth a counterfeit gang in Chicago, who were manufacturing 2 cent stumps at an enormous daily ontput, and although the seizure was a clever piece of work, the treasury department did not care to have it published broadcast that such a thing as counterfeit bureau made stamps was possible.

EIGHT-HOUR DAY.

New York City Will Lead in the Movement and Few Strikes Will Occur.

NEW YORK, April 21.-New York will be practically free from the big eight-hour strikes which will disturb the country on May I. It has so happened that New York, which has taken the lead in the eight-hour movement, has seenred the eight-hour day quietly in nearly all building trades. Many other trades have also secured eight hours without a strike, and thus this city, on May 1, will be a favored spot.

President Hurrison of cigar makers' union No. 144, who is also president of the state branch of the Federation said: "As it looks now there will be few. if any, eight-hour strikes in New York. The strikes will all be in the outside towns. Most of the members of the Brotherhood of Carpenters—the trade eight-hour struggle this year—have aleral Philip H. Sheridan at his birth-ready the eight-hour work day. Many place in Somerset, O. other trudes, which have secured the eight-hour work day in New York, will have to strike for it in other cities.

"It is generally recognized that the displacement of men by machinery can be best met by shortening the working day. This rule has been lived up to better in New York than any other city, Other trades which have secured eight hours will have eelebrations on or about May 1. They will chiefly take the form of indoor massmeetings.

"When the strikes are started on May 1, a national eight-hour association will be formed. It will embrace all trades making the demand. Eight-hour strikes next year will be under the auspices und have the assistance and cooperation of this national eight-hour association.

THE McKinley Republicans in Kentucky take great delight in rubbing it in on Governor Bradley. The Lexington Leader refers to his victory at the State convention as a "dog fall."

THE Ashland News remarks that Governor Bradlev's race for Kentucky's instructions for President recalls Col. Lee's famous fox hound. He always ran so far behind that he thought he was in front. The News was one of the Governor's professed ardent admirers only a few weeks ago, but things have changed.

Although the Bradleyites organized the recent Republican State convention, McKinley's friends were so numerous that they found themselves in a majority in the Committee on Resolutions, and forced the Governor's friends to give the Ohioan second instructions. Here's what the Associated Press says of the affair:

The platform was adopted without opposition, but it is an empty victory for the Bradley men, whose plan has been to give the delegates straight instructions.

While Mr. Thomas has not forms The McKinley men are jubilant over their success in foreing recognition from the faction which has controlled the convention from the outset.

The fight between the Bradley and McKinley men was waged urceasingly and the result is a dog fall. The Governor's friends organized the convention and secured the indorsement of his Presidential candidacy, but the McKinley men forced recognition of their idol in the instructions for delegates and broke the Bradley slate for delegates.

If the McKinley men had been asked at the outset to name their terms they would not have asked more, for they have at all times professed admiration for Governor Bradley, and a willingness to concede in the platform a recommentrict and would make a Representative dation of his fitness for the office of President and instructions carrying the State's vote, if the delegates were instructed to go to McKinley when Bradley's name is withdrawn.

A practical machine that any farmer can use, simply constructed and will last a life-time if properly cared for. Makes its own season, gets tobacco out earlier, starts quicker and more uniformly than hand planting. Will make its price every year in a small crop. See what the largest grower in the State says about it.

From Leslic Combs, Lexington, Ky.: This is to certify that I have used three different Tobacco Transplanting Machines upon my farm, and that I hind the plants live so much better after the Fuller & Johnson "Bemis" I would buy an other. Bad News For Local Lovers of the National Game-Prospects For a Team Not Very Bright.

Here's bad news for local lovers of the great National game.

A week or so ago the outlook was incouraging for a first-class team here this summer.

The guarantee of \$100 a month, however, has not yet been secured, and the party who was the mainstay of last season's team has become so disgusted at the way some people have responded that he feels like quitting and having nothing more to do with the business. Citizens who would be financially benefitted if a team is secured, haven't responded as they ought to.

Another thing. Good players whom the association expected to secure are demanding more than the local managers feel like paying.

The members of the local association are not in the business to make any money out of it. All they want is sufficient to carry the team through the season, and come out free of debt.

A good club would have a tendency to liven things up a little, and would unquestionably draw a good many people here during the season, but if Maysville is to have a team the people must come forward with the guarantee, and that pretty soon.

The Portsmouths wrote the other day, Drugstore. and wanted the Maysvilles to come up and open the new park, promising a crowd of 5,000. Further correspondence, however, brought out the fact that the Portsmouths evidently wanted the earth and the Maysville club thrown in. They offered only \$50 to play the game, and the Maysvilles would have to pay their own expenses.

Heilman is reported dissatisfied at Portsmouth, Va., and will likely be back in Maysville soon if a team is organized.

Secrest and Bailey are doing some good twirling in the Southern League.

A "Free Love" Preacher Given a Thumping by Angry Citizens of Pendleton County.

FALMOUTH, KY., April 19.—Last night remains will be buried at Mt. Gilead. about 11 o'clock a crowd of masked men waylaid Theodore Bird, a so-called free love preacher, as he was returning from church and beat him up very badly with clubs, and told him if he did not leave offense George Walker was taxed \$10 and the country by to-night they would lynch costs. him. He left this evening on the northbound train for Cincinnati.

Bird is the individual who has been preaching in this county all winter a new of \$5 Monday to remind him that he faith. He caused ex-Sheriff F. J. Fossett and wife to go crazy, it is alleged, and they had to be sent to the asylum. He is from Dayton, Ky., where he has a wife charge of the steamer Big Sandy's enand child, who, it is claimed, he does not support.

The people of this county are wrought up to a high pitch of indignation, and if he had not left when he did he would have been lynched.

CHARLES TILGHMAN HILLEARY.

A Tribute to Deceased From a Friend of the Family.

Human life is but a drama, varied, fleeting, now realistie, again misty, abounding in pantomime and shifting scenes; infancy the prologue, all the world a stage; the epilogue, dread, implacable, unerring death! One and all, we drag our given length of chain, the nearest links only within view; a Power above kindly poising, directing, leading, till the

Bearing en train our loves and treasures, this ceaseless pageant from cradle to grave moves on, with no stay of proceedings, no right of appeal. Manly Dress Skirts, at 50 cents. promise, sterling worth, gentle bearing, MASTER JOHN SHACKLEFORD is able to avail nothing; neither a wife's pleading, be out after an illness of several weeks nor mother's prayer, when the summons supreme is rung, from the other shore. Else, Charlie Hilleary's young life had not gone out so soon.

From 1868 to 1896 is brief space, but tells the story, in years, of his earthly dwelling; that of his inner and real life is graven upon the hearts of wife, mother, father,-is sacred, and not for us. A stranger's pen may tell of him only as he presented as man and citizen, in the home of his adaption.

The task is easy, and may well be brief, as sadly pleasing. For there's but one sentiment to voice,—that Charlie Hilleary, in every relation, was true to his lineage, his time, his manhood, in all that betokened a genial, soulful, honorable gentleman. With all this mirrored in his winning face,—genuine stamped upon feature and ontlined in movement, James Hendrickson's residence on East he early won and firmly held, by right, the sincere esteem and regard of all about him. Measured by his developing capacity and irresistible magnetism, the hopes of his friends were most sanguine, his end most untimely.

It is simply true, and being true, i enough, that he was one whom, from whatever standpoint, 'twas a pleasure to know and cultivate; and having known, was yielded up with a pang. To the world ns we find it, such natures are grudgingly Mrs. John Kirkpatrick died at Lex- given, and the benefaction seemingly repented by the untimely recall.

It's consoling to believe that, in fact there is no death, -only the soul's progression. In this-that henceforth each passing day but marks one journey more and Mrs. II. Clay Stone of Mt. Surmof Figs. prompts family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal eleanliness, without debilitating the organs on which it acts.
